This certificate, issued to Engine Technologies Inc.

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 3 of the Civil Air Regulations.

Original Product—Type Certificate Number: 3A24
Make: Cessna Aircraft Company
Model: A185E, A185F

Description of the Type Design Change:

Installation of Turbonormalizer system in accordance with Turbo-Flite 520-D Master Drawing List No. FT185, initial release, dated October 10, 1995 or later FAA approved revisions.

Limitations and Conditions:

1. FAA Approved Airplane Flight Manual Supplement, Rev. N/C, dated March 7, 1996 or later FAA approved revision is required.
2. Installation of STC SE00215DE is required.
3. This approval has been shown to be compatible with only those Ski and Float installations that received STC approval prior to the amendment of this STC dated September 24, 1997.
4. A copy of this certificate and Flight Manual Supplement must be maintained as part of the permanent records for the modified aircraft.
5. If the holder agrees to permit another person to use this certificate to alter the product, the holder shall give the other person written evidence of that permission.
6. This approval should not be extended to aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any of those other previously approved modifications, including changes in type design, will introduce no adverse effect upon the airworthiness of that aircraft.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.
